

Do in book and copy

A. Add by grouping the numbers. First, look for numbers that will add up to 10.

$$5 + 4 + 6 = 15$$

$$2 + 3 + 8 = 13$$

$$2 + 8 + 4 = 14$$

$$5 + 3 + 5 = 13$$

$$7 + 2 + 8 = 17$$

$$1 + 4 + 9 = 14$$

$$3 + 7 + 6 = 16$$

$$4 + 4 + 6 = 14$$

$$7 + 9 + 3 = 19$$

B. Practise these doubles.

$$1 + 1 = 2$$

$$2 + 2 = 4$$

$$3 + 3 = 6$$

$$4 + 4 = 8$$

$$5 + 5 = 10$$

$$6 + 6 = 12$$

$$7 + 7 = 14$$

$$8 + 8 = 16$$

Remember

$$9 + 9 = 18$$

$$10 + 10 = 20$$

How many could you do?
