①

[Fun to learn]

Answer these Questions :

① How is Meenal's grandparents' house different from Her house?

Ans: Meenal's
grandparent's house

Meenal's House

* It is a big house with a lawn in front-

* Toilet and bathroom are in backyard
(away from house)

* The ceilings are high.

* They cook by sitting on the floor
[it does not have a slab]

* Her house is not as big compared to her grandparents house

* Toilet and bathroom are inside the house

* The ceilings are low as compared to earlier house.

* The kitchen has a slab.

② Mention three differences between a Kachcha and a pucca house.

<u>Ans:</u> <u>Kachcha House</u>	<u>Pucca House</u>
* These houses are found in rural areas	* These houses are found in urban area
* These houses need to be repaired often	* They do not need to be repaired often.
* These are made of mud	* These are made of bricks, cement, iron and steel

③ why do we see so many multistoreyed buildings in cities?

Ans: * The population is more in city but area is less so multistoreyed buildings are built
* Also in multistoreyed buildings due to the facilities life become easy and comfortable so more people live in that

④ What is a slum? what problems are faced by people who live there?

Ans: Poor people live in an area where small temporary houses are built very close to one another are called slum.

Problems faced by people live there:

* They live in unhygienic condition.

* No safe drinking water

* A proper toilet facility

* Due to unhealthy conditions of that area [garbage, stagnant water] diseases spread.

Extra Note:

Kachcha House:

- * The floor is smeared with a mixture of cow dung and mud.
- * During rainy season, water drips from the thatched roof.

Kachcha House

* They cost very low.

* They are not that strong.

Pucca House

* They are expensive or costly to make.

* They are strong.
